1. About Luminaries Hub

Who We Are

Luminaries Hub is a strategic technology partner helping organizations across the MENA region scale efficiently through high-quality technical talent and reliable software services.

We go beyond the traditional recruitment model by acting as an extension of our clients' operations. Through a combination of technical expertise, structured delivery, and operational ownership, we help businesses overcome hiring challenges, reduce complexity, and accelerate growth with confidence.

Our approach is built on one core principle: delivering execution-ready talent and solutions that create measurable business impact from day one.

2. Strategic Direction

Objectives

1. Strengthen Luminaries Hub's position as a strategic technology partner in the MENA region.
2. Enable faster access to pre-vetted technical talent and software services.
3. Reduce hiring and operational complexity through structured outsourcing and recruitment models.
4. Support business growth through scalable, execution-focused delivery

Vision

To become one of the leading organizations in the MENA region in software professional services, consultancy, technical recruitment, and IT outsourcing.

Mission

To empower institutions and enterprises to scale efficiently through pre-vetted talent, innovative software services and solutions, and advanced data and AI capabilities, delivering high-quality outcomes that drive innovation, optimize costs, and enable sustainable growth.

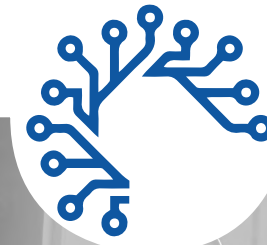

3. What We Do

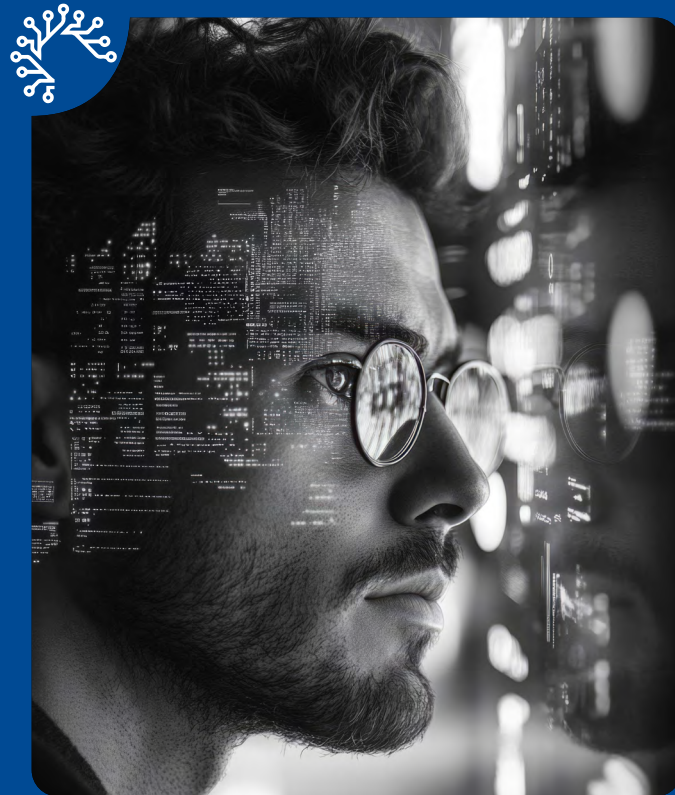

Who We Are

Luminaries Hub provides a comprehensive suite of services designed to support software-driven organizations at every stage of growth. We focus on building high-performing technical teams and delivering dependable technology solutions while removing the operational friction typically associated with hiring, onboarding, and team scaling. Our model ensures that businesses gain access to the right talent at the right time through a structure that prioritizes both quality and efficiency. Beyond recruitment and outsourcing, Luminaries Hub also provides software delivery support, QA services, technical consultation, web and mobile development, and a broader range of specialized technology services.

4. Our Services

Luminaries Hub delivers a focused set of services designed to help software-driven organizations build professional teams faster without the operational overhead. Our approach ensures efficiency, flexibility, and measurable impact

IT Outsourcing

Offering & Contracting

We provide fully dedicated technical talent, including developers, engineers, and specialized professionals, who integrate seamlessly into our clients' internal teams. Luminaries Hub assumes full responsibility for the employment lifecycle, **including:**

Ongoing HR Operations & Employee Support

Onboarding & Deployment

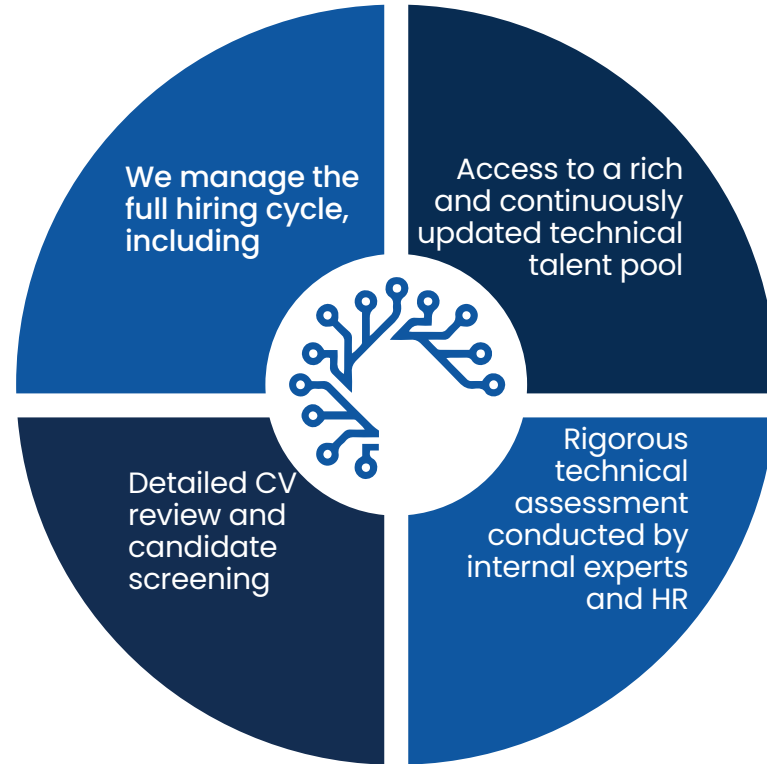

Social, Medical & Life Insurance Administration

Defined Monthly Payroll Cycle

We offer flexible engagement models—on-site, hybrid, offshore, short-term, and long-term—allowing organizations to scale their teams in line with evolving business needs. Outcome: Faster team expansion, reduced administrative burden, and more predictable operational costs.

Technical Recruitment

Our recruitment service is built to deliver precision hiring with a strong focus on quality, relevance, and efficiency.

Technical Recruitment Process

At Luminaries Hub, our recruitment process is built to deliver qualified technical talent through a structured, efficient, and business-focused approach. Each stage is designed to improve hiring accuracy, reduce delays, and ensure a smooth experience for both clients and candidates.

Outcome: Clients receive a refined shortlist of highly qualified, interview-ready candidates—saving time, improving hiring accuracy, and reducing interview waste.

Professional Services

We support organizations through end-to-end technical services that enhance product quality, system performance, and operational efficiency.

Our offerings include:

Software Development:
Web Development,
Mobile Development,
Backend & Frontend
Engineering, API
Development,
System Integration,
Maintenance &
Enhancement Support.

Testing as a Service (Taas): Flexible QA solutions delivered by certified testing professionals.

Technical Consultation:
Strategic guidance to improve systems, workflows, and technical decision-making

Outcome: Stronger products, improved system reliability, and more efficient technical operations.

5. How We Work

Our delivery model is designed to ensure consistency, transparency, and high-quality outcomes at every stage of engagement.

Understand:

Source & Screen:

Onboard & Deploy:

Assess & Shortlist:

Support & Optimize:

We assess your business objectives, technical requirements, and team structure

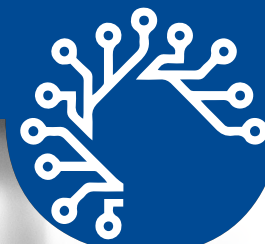

We identify and evaluate relevant talent through our network and internal database

We support onboarding, compliance, and operational readiness

Technical validation ensures only strong-fit candidates move forward

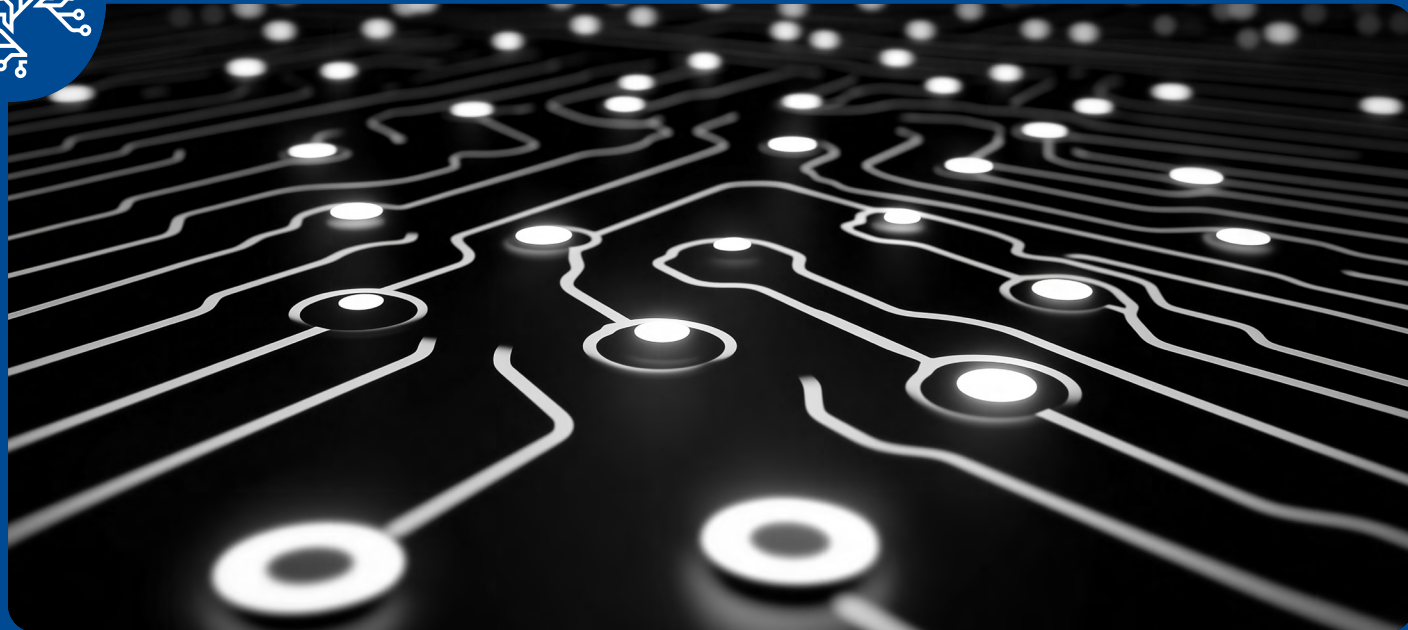

We maintain continuous follow-up to

This structured approach minimizes hiring risk and enables seamless integration into your operations.

6. Why Luminaries Hub

We differentiate ourselves through a combination of technical depth, operational ownership, and delivery efficiency:

Pre-Vetted Talent—Every candidate goes through rigorous technical screening before submission

End-to-End Ownership – We manage the full journey from sourcing and assessment to onboarding and operational support

Reduced HR Burden – Payroll, insurance, and compliance are fully handled through our outsourcing model

Scalable Engagement Models – Flexible delivery structures aligned with business growth and changing needs

Regional Market Understanding – Strong familiarity with both the Saudi and Egyptian business environments

Broader Professional Services Capability – Beyond hiring and outsourcing, we support clients through software development, TaaS, technical consultation, and scalable technical delivery services.

7. Industries We Serve

Who We Are

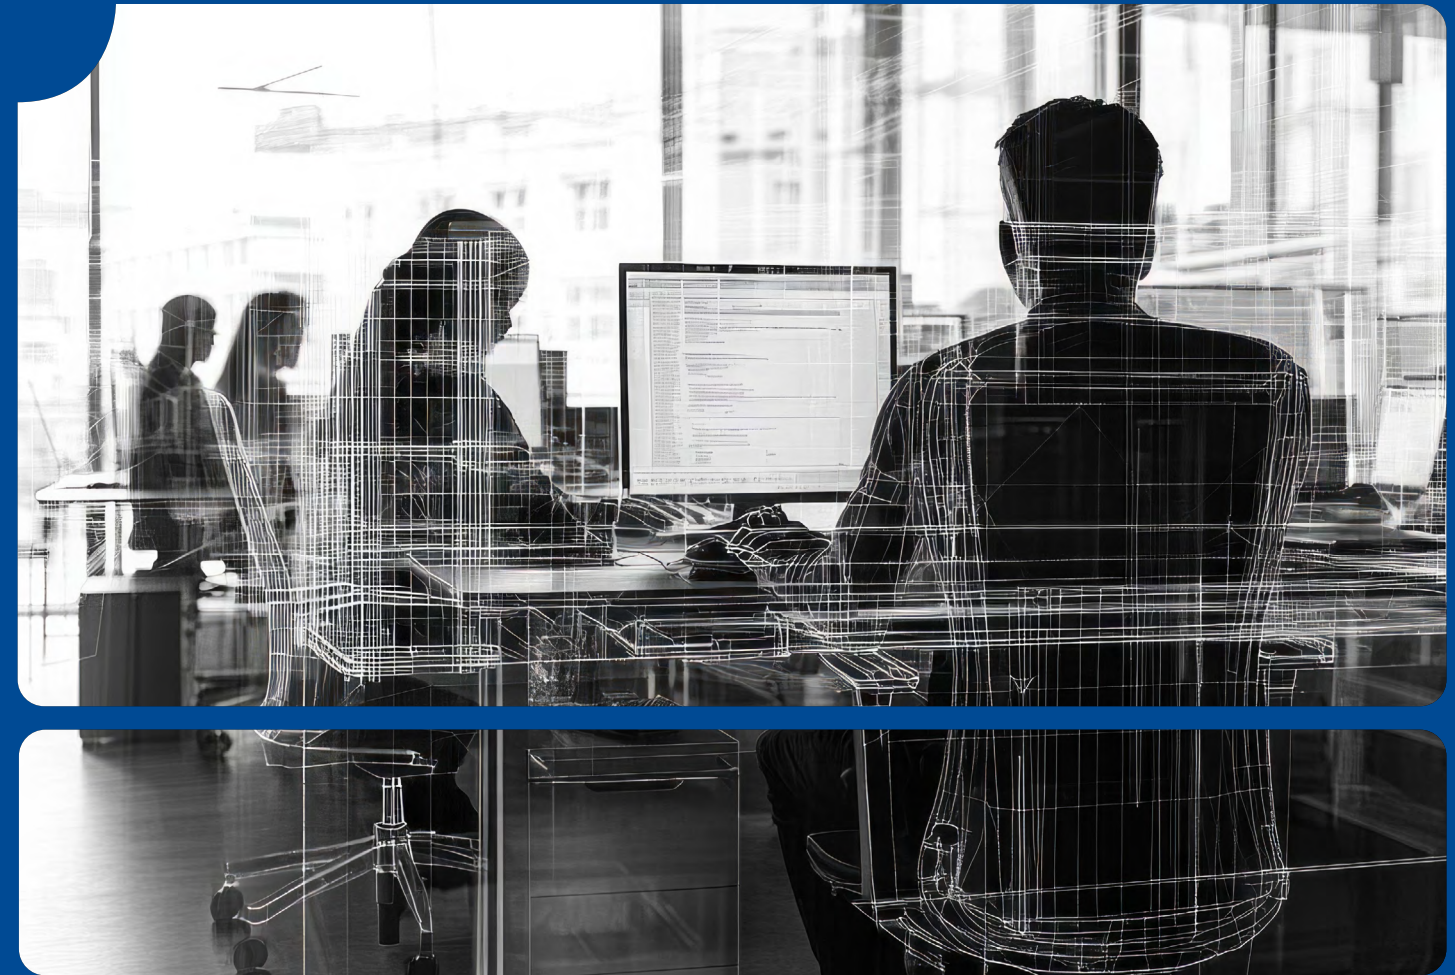

Our services are tailored to the needs of high-demand, technology-driven industries, including:

Banking & Financial Services, where compliance, reliability, and technical precision are critical

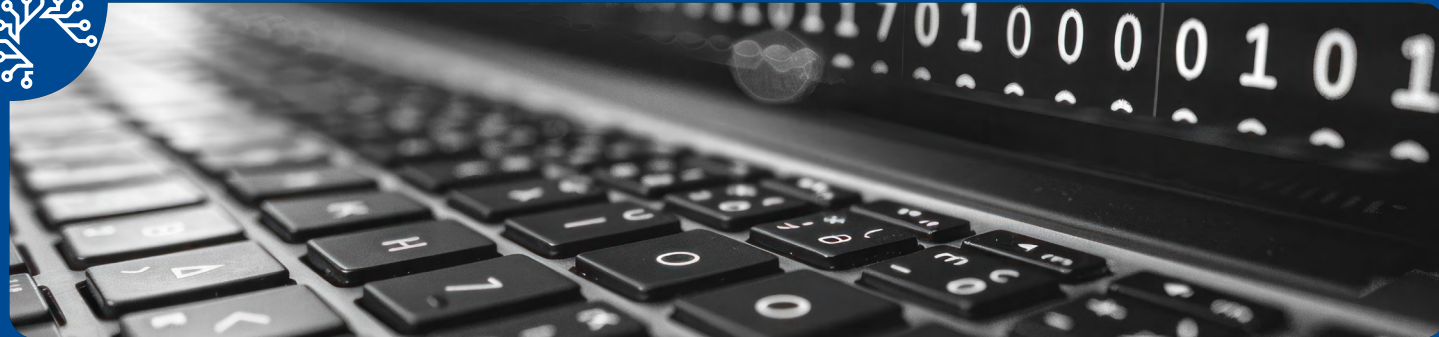

Government & enterprise organisations, where structured delivery and operational reliability are essential

Fintech, where speed, agility, and high-quality talent are essential for growth

Software & Technology Companies, where continuous product development and technical scalability are key

8. Client Value & Business Impact

Partnering with Luminaries Hub creates practical business advantages, including:

Faster hiring and team scaling

Improved efficiency and cost optimization

Reduced time-to-hire and operational delays

Higher-quality candidate selection

Lower HR and administrative workload

Our clients gain the ability to scale with confidence while maintaining focus on their core business priorities.
